

Acronyms and their Abbreviations

This section contains the acronyms used in this document and their corresponding full forms to enhance user comprehension.

Abbreviation	Full Form
ISO	Independent Sales Organization
Sub-ISO	Subsidiary Independent Sales Organization

Introduction

The term "ACH" is an acronym for Automatic Clearing House, denoting a system primarily employed in business-to-business transactions. This payment method, characterized by bank-to-bank transfers, comprises two fundamental transaction types: ACH credit and ACH debit.

In ACH credit transactions, the initiator, or sender, authorizes a bank to transfer funds from their account to the recipient's account. In ACH debit transactions, the initiator requests the withdrawal of funds from the recipient's account to their own. While consumers occasionally initiate ACH credit transactions, such as making bill payments through online banking portals or peer-to-peer payments via applications, the predominant actors in ACH transactions are companies or government agencies. If they transfer funds to individuals through the ACH network, it constitutes an ACH credit. If they withdraw funds for payment via the ACH network, it constitutes an ACH debit.

Objective & Scope

This comprehensive document has been created to serve as a knowledge base for the ISOs, sub-ISOs, merchants, and operators on the new exclusive feature, the ACH. The primary audience for this document includes ISOs, sub-ISOs, merchants, and operators.

The document's scope includes:

- 1. Provide an in-depth overview of ACH offering by introducing the feature and outlining the benefits it offers to ISOs, sub-ISOs, merchants, and operators.
- 2. Offering a step-by-step guide for admin to enable or disable the ACH feature for their respective ISOs and sub-ISOs.
- 3. Offering a step-by-step guide for ISOs and sub-ISOs on enabling or disabling the ACH feature for their respective merchants.

Prerequisites

 Access to the ACH feature is exclusive to ISOs & merchants and is facilitated through the Valor Portal. As a prerequisite, merchants must have login access to the Valor Portal. The link to portal is <u>https://vponline.valorpaytech.com/login.</u>

Figure 1: Screenshot of the improved portal login screen

 The ACH feature is available to the subscribed ISOs only. The ACH feature is available to subscribed merchants once access is granted by their respective ISO or sub-ISO. ISO or sub-ISO users can enable or disable this module for their merchants as required, and merchants can do the same for their operators.

Benefits of ACH

In the realm of financial transactions, ACH stands as a pivotal system offering an array of unparalleled benefits, making them the preferred choice for businesses and merchants. Major benefits of the ACH feature are as follows:

- **Confidentiality and Security**: ACH transactions prioritize the confidentiality of card information and with the collected account number details we employ encryption to secure the information.
- No Eligibility Criteria: ACH eliminates complex eligibility criteria for ISOs and merchants, especially catering to the requirements of business-to-business payments.
- **Detailed Insights:** Our system offers detailed updates and insights within a maximum timeframe of 48 hours, keeping you informed about the status of your transactions and enhancing transparency and accountability.
- Environmentally Responsible Solution: By opting for the environmentally conscious and highly efficient ACH solution, the ACH-enabled e-invoices and Pay Now Links, help your business align with a greener future. It helps to minimize paper usage and thereby reduce the carbon footprint.

ACH Feature Access & Transaction Procedures: Step-by-Step Guide

Step 1: Access Authorization: ACH Provider Admin Enables ACH Feature for ISOs & sub-ISOs

The ACH feature is available to subscribed ISOs. During the onboarding process, enrolled ISOs can authorize the ACH feature for their merchants as an available module under the User Management module. Only if the admin enables the ACH option here, it will be available for its ISOs and sub-ISOs. Two vendors will be available in the dropdown under the ACH option.

Step 2: ISOs Enable the ACH Feature for Merchants: Step-by-Step Instructions for ISOs

As an ISO, you can enable the ACH feature for new Merchants via the Boarding Process.

How to enable the ACH feature for a new merchant

- 1. Log in to your Valor Portal using your ISO login credentials.
- 2. Navigate to Merchant Management module and select Add New, followed by Full Board.

Step 4: View ACH Transaction Summary

Merchants can access detailed ACH transaction information in the 'Summary Report', offering detailed updates on transaction progress. The system ensures prompt updates, allowing merchants to track transaction status under the ticket summary. Complete ACH transaction details become available within a reasonable timeframe, offering transparency and timely information. *(refer to figure 19)*

Frequently Asked Questions (FAQs)

1. How long does it take for an ACH transaction to reflect in the system?

Our system ensures detailed updates, typically within 48 hours of your transaction. During this period, you can track the progress under the ticket summary. Merchants can view the complete ACH transaction details in the Summary Report within 48 hours of the transaction, providing you with timely and transparent information.

2. Is sharing my financial information safe? What details do I need to provide for ACH transactions?

Absolutely, your security is our priority. With ACH transactions, you only need to share your account and routing numbers. We prioritize the confidentiality of your sensitive credit card information, ensuring it remains secure. This means you don't have to disclose your card details, paving the way for hassle-free and secure payments. Your peace of mind is important to us, and we've designed our system to safeguard your financial interests at every step.

3. Who should I contact for assistance or queries related to ACH transactions?

For any questions or assistance, our dedicated team is here to help. You can reach us via email at <u>sales@valorpaytech.com</u> or give us a call at **1.800.615.8755**. Additionally, we encourage you to explore our Knowledge Base at <u>www.valorpaytech.com/kb</u> for additional resources. Your trust in us is valued, and we look forward to assisting you with your payment processing needs.

Conclusion

In conclusion, at Valor PayTech, we are committed to simplifying and enhancing your payment processing experience. Our focus on seamless service, transparency, and innovative solutions like ACH emphasizes our dedication to improving customer relationships and delivering exceptional value.

Contact details

For any questions or assistance, please don't hesitate to reach out to our team at <u>sales@valorpaytech.com</u> or call us at **1.800.615.8755**. For additional resources, be sure to visit <u>www.valorpaytech.com/kb</u>. We appreciate your trust in us and look forward to serving your payment processing needs. Join us on this journey to elevate your customer relationships to new heights.
